## Koalas – furry friends

### a) Pre-reading exercise

marsupial [mɑ:ˈsju:pjəl] сумчатый

liquid [ˈlɪkwɪd] жидкость

eucalyptus [ju:kəˈlɪptəs] эвкалипт

cute [kju:t] привлекательный, милый

### b) Reading

Read the text about koalas and underline the correct word.

Then listen and check your answers.

They are cute, they are soft, but they are wild and they **don't /doesn't** make good pets. You may think they are bears, but they aren't. Koalas are Australia's most popular marsupial [mɑ:ˈsju:pjəl] **mammals/ reptile**. They **have /has** got big round ears and a black nose. They have got sharp **claws/paws** for climbing. They have got **grey/black** fur. They have got short, strong arms and legs. They eat eucalyptus [ju:kəˈlɪptəs] leaves. They live in trees.

Do you know that koala means “no water”? They never **drink/drinks**, but they get all the liquid from eucalyptus leaves. They swim very well. They sleep during the day.
